

Prof. Dr. Saeed Hassan Ibrahim
Vice Dean for Education and Students Affairs,
Quality Assurance Unit Manager
Faculty of Artificial Intelligence,
Egyptian Russian University

The Faculty Vice Deanship for Education and Student Affairs, which is one of the basic pillars of the Faculty of Artificial Intelligence at the Egyptian Russian University, seeks to achieve the vision, mission, goals and policy of the faculty to advance the educational process to the highest levels of quality and excellence through its care for the most important elements of university work, which is the student, who is the focus of the educational process. His efficiency determines the quality of the faculty.

The Faculty Vice Deanship for Education and Student Affairs seeks to provide everything that benefits the student during his university stage, whether at the level of education or building an educated, conscious personality capable of dealing with the requirements of the current stage as well as the challenges of the future stage.

The student is the focus of our attention, and therefore one of our most important goals is to raise his level of understanding and appreciation for science and develop his talents and abilities to the greatest extent possible to achieve distinguished educational outcomes capable of competition that meet the requirements of the labor market needs and enhance career opportunities.

In order to achieve comprehensive quality and continuous development of the university education system, and to raise the level of efficiency and competitiveness of the outcomes of the educational process, thus achieving the Faculty's presence on the map of distinguished Faculty, whether at the national or international level, the Faculty Vice Deanship for Education and Student Affairs seeks during the next stage to develop

the current academic programs (The Artificial Intelligence Program and the Data Science Program) in accordance with local and international academic standards and references, and the opening of new programs (the Cybersecurity Program and the Software Engineering Program) to meet the needs of the labor market.

Believing in the Faculty Vice Deanship for Education and Student Affairs in the importance of developing students' talents, enhancing the spirit of creativity and innovation, and encouraging cooperation and teamwork, the Faculty Vice Deanship for Education and Student Affairs urges students to participate in the activities and events organized by the agency.

With my sincere wishes for success and progress for our students, for our faculty and university for progress and prosperity, and for our dear Egypt with security, progress and prosperity.
